To whom it may concern:

Eko Custom Hearing Protection Inc. provides quality, innovative, cost-effective hearing protection products.

Their customer service is exceptional; they really cared about our employees and their concerns. Any concerns we had, were addressed in an authentically professional manner. They made it a priority to greet each and every one of our employees and subsequently informed each of our staff members of the process involved in the fabrication of molded hearing protection. Their friendly, approachable demeanor made each of our employees feel at ease during the entire process.

They proactively did a cost comparison, to show us the amount of money presently being allocated to disposable hearing protection, and our projected future savings. This made an impression on our management, as it demonstrated the amount of research and care they put into their business. In addition, they are an extremely time efficient company; communicating their proposed timelines for delivery of their product and following through.

In conclusion, for any business that requires the use of hearing protection on their worksite, we highly recommend Eko.

Sincerely,

Alta-Fab Structures HSE Team

We would like to take this opportunity to thank EKO Hearing Protection Inc. for their *professional* yet *personalized* service. Marj and Brant provided friendly, efficient service. The hearing protection offered through EKO are quality products at a very affordable cost. We enjoyed working with EKO, and will continue to use them for all our custom hearing protection needs in the future.

Sincerely,

HSE Team Alta-Fab Structures Ltd
